### DETAILED ACTION

1. This application is in condition for allowance except for the following formal matters:

The phrase "transition metal" in claims 25-27 respectively should be deleted.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

2. The following are the reason for allowance:

Prior art such as Brookhart et al. (US 5,880,241) teaches transition metal complexes represented by formulas (I) and (II) as shown in col. 33. However, Brookhart does not teach or reasonably suggest the R<sup>2</sup> and R<sup>5</sup> groups of transition metal compounds to be heteroaryl or aryl bearing hetero aryl or aryl substituents in the two vicinal positions relative to the linkage point to the two "N" atoms like the R<sup>2</sup> and R<sup>4</sup> of the instant claims. Therefore, the instant claims are deemed to be novel.
